

Policies for Announcements

Part of Tango Colorado's mission is to promote interest and involvement Argentine Tango. Announcing upcoming events and classes every Tuesday Practica is one way we do this.

What we announce. Any and all tango events that are open to our members and the public. As a general rule, we will prioritize upcoming non-recurring events. Recurring events such as weekly classes will be announced less frequently.

How we announce. If you would like to have your event announced, let a board member know when you arrive at practica. In order to keep a consistent and concise flow, we will not, by default, have individual organizers on stage to announce events except in cases where TC is collaborating with the organizer on an event (e.g. if TC is co-hosting the event).

When we announce. We recommend making announcements between 8:15 to 8:30pm immediately followed by the community dance. Relatively newer members to the community, who benefit most from announcements and the community dance, are typically still around at that time and most practica attendees have also arrived by then.
